

ULTRALX[®] Custom Armouring and Identification Solutions

Electec is equipped to deliver customized and unique value-added solutions – Manufactured to your specifications.

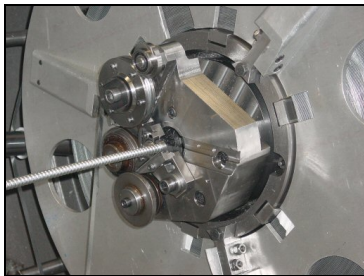

←To the left is an AC90 10/16 Armoured Cable custom made for home run applications.

The cable is constructed of 16 #10AWG Stranded Copper Conductors (8 lines, 8 neutrals) in an interlocking aluminum armour to the AC90 standard (CSA 22.2 No.51-95).

This product arrived on site ready to install without the need for 1 1/4" trade size conduit, saving time and money.

Stranded conductors and flexible ULTRALX armour make this product appealing to handle and install.

Sample Applications Include:

Custom armouring of supplied wire
(Fiber, Twisted-Pair Copper)

Wire identification
(Numbering, Striping etc.)

Cable bundling
(For faster pulls and structured installs)

Allow our design team assist you with your custom wire and cable requirements
